FUND INFORMATION

Name of the Fund

ASEAN Equity Fund

Base Currency

Ringgit Malaysia (MYR)

Fund Category

Shariah-compliant equity fund

Fund Type

Growth

Investment Objective

The Fund seeks to provide Long-term capital growth.

Any material change to the investment objective of the Fund requires the Unit Holders' approval.

Investment Policy & Strategy

To achieve its objective, the Fund invests in a diversified portfolio of Shariah-compliant equities across the ASEAN region. Asset allocation decisions are made after a review of macroeconomic and currency trends in the Southeast Asian economies.

The Fund generally follows a value-oriented investment style, favouring companies with potential for earnings growth. The Manager analyses economic growth rates, interest rates, inflation, currencies and government policies. Stock selection criteria include improving fundamentals and solid growth potential at reasonable valuations. Stock valuation fundamentals considered are sales growth, profit margin, cash generation, earnings per share, return on equity, price earnings ratio and net tangible asset multiples.

The Fund's investments comply with Shariah requirements of Shariah Advisory Council of the SC for Malaysian securities and, as prescribed by its Shariah Advisor, for all other foreign securities. The Fund generally invests in investments for the Long-term, with annual portfolio turnover not expected to exceed 30%, given normal circumstances. The annual portfolio turnover is a measurement of how frequent the investments of the Fund are bought and sold by the Manager. The annual portfolio turnover is calculated by taking either the total amount of new investments purchased or the amount of investments sold, whichever is less, over a period of 12 months, divided by the NAV of the Fund.

The Fund invests in ASEAN countries which includes but are not limited to Malaysia, Singapore, Thailand, Indonesia and the Philippines. However, the Fund's investments in foreign markets are limited to Eligible Markets where the regulatory authority is an ordinary or associate member of the International Organization of Securities Commissions (IOSCO).

The Fund is actively managed, however, how active or the frequency of its trading strategy will depend on market opportunities.

Temporary Defensive Positions

When the Manager considers the market, economic, political and other conditions to be adverse to the Fund, the Manager may adopt a temporary defensive positions that may be inconsistent with the Fund's investment strategy. At the discretion of the Manager, the Fund may temporarily increase its holdings in cash to respond to those conditions. In such circumstances, the Manager may temporarily allocate up to 100% of the Fund's NAV into Islamic money market instruments or placement in Islamic deposits with Islamic financial institutions.

RISK FACTORS

All types of investments carry some degree of risks that may have an adverse effect on the price of the investments. Therefore, before making an investment decision, Investors are advised to consider the different types of risks that may affect the unit trust fund. Below are some of the general risks of investing in the unit trust fund and specific risks related to the ASEAN Equity Fund.

General Risks of Investing in the Unit Trust Fund

Market Risk

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's Net Asset Value.

Non-Compliance Risk

The Fund, the Manager and/or the Trustee may not comply with the provisions set out in the Deed or the law that governs the Fund. The Fund, the Manager and/or Trustee may not comply with operating procedures whether by oversight or by omission, or the Manager may act fraudulently or dishonestly. Such non-compliance may force the Manager to sell down securities of the fund at a loss to rectify the noncompliance and in turn may adversely affect the Unit Holders' investment. To mitigate this risk, the Manager has put in place internal controls to ensure its continuous compliance with laws, rules and regulations, prescribed practices and the Manager's internal policies and procedures.

Performance Risk

A failure of the Manager to display the requisite experience and expertise in making investment decisions for the Fund may jeopardize the Fund's performance. There is no guarantee the Fund will meet its investment objective of Long-term capital growth. Investors should be aware that no guarantee is given that they will receive returns on their investments, or that investors will get back their initial amount invested in full. In order to mitigate this risk, the implementation of internal controls and a structured investment process and operational procedures has been put in place by the Manager.

Operational Risk

Operational risk includes risks that arise from internal process of organisation. These may result from inadequacies or failure in processes, controls or projects due to fraud, unauthorised activities, error, omission, inefficiency, systems failure or from external events. Operational risk may affect the Unit Holder's investment negatively.

The Manager and Trustee have various control mechanisms at different levels throughout the organisation to monitor that the operational policy and procedures are being followed.

Specific Risks related to the Fund

An investor should consider the specific risks when investing in the Fund; these may include but are not limited to:

Equity Securities Risk

Shariah-compliant equity securities may experience significant volatility in response to economic or market conditions or adverse events that affect a particular industry, sector, or company. The value of a particular Shariah-compliant equity securities may also fluctuate in response to activities of individual companies. This risk can adversely affect the prices of equities, which would negatively impact the performance of the Fund. To mitigate this risk, the Manager will conduct rigorous fundamental analysis of the Shariah-compliant equity securities.

Price Level Risk

Inflation may erode the value of Long-term contracts entered into by companies and may adversely affect companies that cannot raise prices at the same pace their costs increase. If companies' profitability decreases, the value of its equity shares will go down, thus affecting the value of Unit Holders' money invested in the Fund and the value of any returns thereof negatively; the opposite is true as well.

Deflation, being the decrease in the general price level of goods and services, may increase the relative value of debt and cash. Economies in recession have higher risk of deflation, which can encourage the hoarding of cash and deepen the recession. For example, during a downturn in the market, companies become more conservative with their cash and

do not spend on capital expenditures, increase of staff, etc. (cash hoarding). This action can result in a more drawn out recession (deepening); as companies spend less on capital expenditure, other companies sales go down and the value of equities of the company go down as well, thus affecting the Fund negatively.

Concentration Risk

Investors should be aware of the Fund's possible concentration in a particular sector when investing in this Fund. Should the Fund's investments be concentrated in a sector that underperforms the general market, it could cause the Fund's overall results to suffer more than if the Fund was exposed to a less concentrated portfolio. The Fund may therefore be subject to a higher level of risk than a more diversified portfolio.

Country Risk

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the Net Asset Value of the Fund or prices of Units to fall.

Currency Risk

As the investments of the Fund may be denominated in currencies other than the base currency, any fluctuation in the exchange rate between the base currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the base currency, this will have an adverse effect on the NAV of the Fund in the base currency and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

Active Investment Risk

The Fund's active investment strategy means the number and weights of holdings in the Fund's portfolio may deviate significantly from the components of the benchmark, which may result in the Fund's performance failing to match or exceed the performance of the benchmark.

Reclassification of Shariah Status Risk

This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by the Shariah Advisory Council of the Securities Commission Malaysia, the Shariah Advisor or the Shariah boards of the relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose such equities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities. The value of the Fund may be adversely affected when the Manager disposes of portfolio investments in unfavourable market conditions. Please refer to the Shariah Investment Guidelines on pages 11-12 for the Fund's Shariah methodology on the treatment of gains and losses as a result of the reclassification of Shariah non-compliant equities.

Risk Management Strategies and Techniques

The Manager seeks to mitigate the above risks by investing in a diversified portfolio of Shariah-compliant securities, thus spreading the element of risk. Diversification can be achieved by investing in various companies across different industries/sectors and major ASEAN Exchanges that are uncorrelated. In addition, the Manager undertakes an active bottom-up investment approach to ensure that the fundamentals of the stocks invested in are favourable.

The risk management strategies adopted by the Manager are as follows:

- monitoring adherence to the Fund's investment objective, investment restrictions and limits;
- conduct regular monitoring of market and economic conditions;
- escalating and reporting investment matters to the investment committee, senior management team, risk committee, Shariah Advisor and board of directors;
- taking temporary defensive positions when appropriate; and
- monitoring the performance of the Fund.

The above list of risks may not be exhaustive. While every care will be taken by the Manager to mitigate the risk, Investors should be aware that investments in the Fund may be exposed to other risks of an exceptional nature from time to time. Events affecting investments cannot always be foreseen and it is not possible to protect investments against all risks.

Investors are recommended to read the whole Prospectus to assess the risks of the Fund and if necessary, they should consult their Advisor(s), e.g. their bankers, lawyers, stockbrokers or professional Advisors for a better understanding of investment risks.

The investment restrictions and limits for the Fund are as follows:

- The value of the Fund's investments in unlisted Shariah-compliant securities must not exceed 10% of the Fund's NAV. However, this limit does not apply to unlisted Shariah-compliant securities that are not listed or quoted on a stock exchange but have been approved by the regulatory authority for such listing and quotation and are offered directly to the Fund by the issuer and sukuk traded on an organised over-the-counter (OTC) market;
- The value of the Fund's investments in Shariah-compliant ordinary shares issued by any single issuer must not exceed 10% of the Fund's NAV;

- The Fund may invest only in Shariah-compliant equity securities traded on Eligible Markets.
- There are no restrictions and limits imposed on securities or instruments issued or guaranteed by the Malaysian government or Bank Negara Malaysia.

The above investment restrictions and limits must be complied with at all times based on the most up-to-date value of the Fund's investments. However, a 5% allowance in excess of the restrictions or limits is permitted where it is breached through an appreciation or depreciation of the Fund's NAV (whether as a result of an appreciation or depreciation in value of the Fund's investments or as a result of redemption of Units or payment made from the Fund).

The Manager will not make any further acquisitions to which the relevant restriction or limit is violated. Within a reasonable period of three (3) months from the violation date, the Manager shall take all necessary steps to rectify the violation.

Securities as a Result of Corporate Actions

The Fund may hold various instruments received solely as a result of owning the equity shares of issuers engaging in certain corporate actions. Such instruments may include, but are not limited to, warrants and rights on the underlying issue. Although these instruments may be considered derivatives, the Manager may hold or dispose of these instruments according to its discretion.

Bases for Valuation of the Assets of the Fund

Investment Instruments	Valuation Basis
Shariah-compliant securities listed on any exchange	Valuation of securities should be based on market price. However, if: <ul style="list-style-type: none"> • a valuation based on the market price does not represent the fair value of the securities, e.g. during abnormal market conditions; or • no market price is available, including in the event of a suspension in the quotation of the securities for a period exceeding fourteen (14) days, or such a shorter period as agreed by the Trustee, then the securities should be valued at fair value, as determined in good faith by the Manager based on the methods or bases approved by the Trustee after appropriate technical consultation.
Islamic money market instruments	Investments in Islamic money market instruments are valued daily at book cost, meaning cost of acquisition plus accretion of discount.
Placement in Islamic deposits	Valuation for Islamic deposits placed with Islamic financial institutions, will be performed by reference to the principal value provided by the Islamic financial institution that issues or provides such investments including profits accrued thereon for the relevant period, if any.
Any other instruments	Fair value as determined in good faith by the Manager, on methods or bases which have been verified by the auditors of the Fund and approved by the Trustee.

Shariah Investment Guidelines

The Shariah Advisor monitors the operations and investments of the Fund in accordance with the Shariah investment guidelines. To ensure compliance with Shariah principles, the Shariah Advisor reviews the Fund operations and investments every month.

The Shariah investment guidelines stipulate that investments in shares of companies identified as morally deficient, such as those related to alcohol, tobacco, gambling, pork processing, and pornography are prohibited. In addition, because Shariah law prohibits the charging of interest (riba), investments in many financial companies are excluded. The Manager provides the Shariah Advisor with a monthly report on the holdings and transactions of the Fund.

Shariah investing requires that companies that do not comply with Shariah law are not considered for purchase. Securities of companies that fail to pass a series of financial ratio filters are also excluded from consideration.

The Fund does not invest in debt instruments and investments that might be considered as speculative, such as derivatives. As the Fund does not speculate, it does not engage in short-term trading and normally holds its investments for several years.

Rules on divestment of Shariah non-compliant securities

In the event the following investment instances occur in the Fund, the rules below shall be executed by the Manager:

“Shariah-compliant securities” which are subsequently considered “Shariah non-compliant”

This refers to those securities which were earlier classified as Shariah-compliant securities but are subsequently reclassified as Shariah non-compliant. In this regard, if on the date the securities turned Shariah non-compliant, the respective market price of Shariah non-compliant securities exceeds or is equal to the original investment cost, the Manager must liquidate them. Since it is not always feasible to liquidate an entire position in one day, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities after the date of the announcement at a market price that is higher than the closing price on the date of the announcement shall be recorded for reporting in the annual report in the section on purification.

On the other hand, the Fund is allowed to hold the investment in the Shariah non-compliant securities if the market price of the said securities is below the Fund's original investment costs. It is also permissible for the Fund to keep the dividends received during the holding period until such time when the total amount of dividends received and the market value of the Shariah non-compliant securities held equal the original investment cost. The Fund is allowed to hold such investment until breakeven.

Shariah non-compliant securities

If the Manager mistakenly invests in Shariah non-compliant securities, the Manager needs to dispose of any Shariah non-compliant securities, within a month of becoming aware of the status of the securities. Any gain made in the form of capital gain or dividend received before or after the disposal of the securities shall be handled in the same manner as purification, detailed in “Purification Guidelines” section below. The Fund has a right to retain only the original investment cost, which may include brokerage fees and other transaction costs. If the disposal of the investment resulted in losses to the Fund, the losses are to be borne by the Manager.

Purification Guidelines

Under the Shariah principles, any income or distribution received by the Fund from investments in its portfolio which relates to income from Shariah non-compliant investments are considered as impure income. This impure income is subject to an income purification process.

Income purification is calculated on two criteria:

- Benefit of riba-based loan (in cases where the companies obtain riba based loans); and
- Haram income, regardless of the sources.

The process of income purification is calculated as follows:

In the case of companies which are involved in riba-based loans, purification of the benefit arising out of money obtained through riba-based loans is done as follows:

- Total amount of riba-based loans of the company is divided over the company's assets;
- The result is then multiplied over total net dividend received by the Fund;
- The result would be total net dividend received by the Fund arising out of riba-based loans; and
- The amount would then be divided into two, capital and labour; capital is to be purified. The portion arising out of capital must be purified because the capital was obtained from Shariah non-compliant source while the portion arising out of the labour is allowed to be kept because the business activities are permissible. Purification of benefit from riba-based loans shall not be carried out when the companies are not paying any dividend. For short-term riba-based loans, purification shall be carried out in accordance with the tenure of the loan over the financial period.

In case of non-permissible or **haram income**, purification must be carried out on the total income regardless of the source of income or whether the company has gained profit or otherwise and whether dividend has been distributed or otherwise. In cases where the actual amount of the non-permissible or haram income could not be obtained, such amount shall be estimated. Purification in this scenario shall be carried out by dividing the total haram income over total shares of the company and multiplied by the average number of shares owned by the Fund during the period. The purification amount would then be pro-rated according to the period of holding. The purification amount shall be deposited into a separate account which is segregated from the account of the Fund. The Manager shall distribute the purification amount to the Unit Holders, pro rata, as soon as possible with consultation of the Shariah Advisor.

The Manager must inform Unit Holder that they are obliged to purify their specific purification amount in accordance with the Shariah principles by channelling it to Baitulmal and/or any charitable bodies.

The Fund's purification method has been approved by the Shariah Advisor.

FEES, CHARGES AND EXPENSES

No direct fees or charges

The Fund seeks to minimize the expenses of Investors. There is no sales charge, redemption charge, transfer fee and switching fee payable by you.

Indirect fees and expenses

The fees and expenses **indirectly** incurred by you when investing in the Fund are as follows:

Fees payable to the Manager

An **administration fee** of 0.25% per annum of the NAV of the Fund is paid to the Manager. The fee is accrued daily and paid monthly out of the Fund. The Manager's administration duties include the following:

- Maintaining the books and records of the Fund;
- Determining the daily NAV per Unit of the Fund;
- Maintaining Unit Holders' accounts, including the processing of purchases and redemptions;
- Complying with anti-money laundering procedures for all transactions;
- Complying with Foreign Account Tax Compliance Act obligations for United States investors;
- Preparing reports on the Fund, its performance, and investments for Unit Holders;
- Preparing reports for the SC or any other regulator as requested;
- Payment of expenses relating to the issuance and replacement of this Prospectus;
- Payment of expenses relating to the Board;
- Payment of expenses relating to the Shariah Advisor;
- Calculation of purification income;
- Convening meetings of the Unit Holders other than for the benefit of the Manager or Trustee;
- Other services required in the Deed.

An illustration on how the administration fee is calculated:

$$\text{Administration fee for the day} = \text{NAV} \times 0.25\% / 365$$

Example:

If the NAV of the Fund is MYR 20 million, then

$$\begin{aligned} \text{Administration fee for the day} &= \text{MYR } 20 \text{ million} \times 0.25\% / 365 \\ &= \text{MYR } 136.99 \end{aligned}$$

A **distribution fee** of 0.25% per annum of the NAV of the Fund is paid to the Manager in relation to the Fund's distribution plan (see page 22). The fee is accrued daily and paid monthly out of the Fund.

An illustration on how the distribution fee is calculated:

$$\text{Distribution fee for the day} = \text{NAV} \times 0.25\% / 365$$

Example:

If the NAV of the Fund is MYR 20 million, then

$$\begin{aligned} \text{Distribution fee for the day} &= \text{MYR } 20 \text{ million} \times 0.25\% / 365 \\ &= \text{MYR } 136.99 \end{aligned}$$

A **performance fee** of 10% of the gross asset value that cumulatively increases or decreases (excluding subscriptions and redemptions) for each day in the financial year. Please note that neither a benchmark nor a high water mark is considered in computation of the performance fee.

In the opinion of the Shariah Advisor of the Fund, taking a percentage of profit is better than charging a flat fee. As such, the Manager receives investment management compensation only from the daily increase in the gross asset value (excluding subscriptions and redemptions) of the Fund. Please note that the higher return of the Fund, the higher the performance fee charged to the Fund. The Manager receives no investment management compensation based on assets.

In computing the daily NAV per unit, the accrued performance fee is included with the other accrued fees as mentioned in this section, namely administration fee (0.25%), distribution fee (0.25%) and trustee fee (0.05%). In total, these fees amount to 0.55% annually.

Illustration of performance fee at the beginning of financial year:

Assuming that on 1st January (day 1), NAV of the Fund is MYR20 million, with 20 million units in circulation at per unit price of MYR1.00. On 2nd January, the gross asset value of the Fund increased by 0.5% and no redemptions or additional subscriptions were made. Computations are rounded to the nearest number (except for the unit price), without showing the GST.

Day 2

	MYR
NAV on 1 st January	20,000,000

On 3rd January, the investment value of the Fund decreased by MYR602,691 (MYR20,089,697 x 0.97) compared to the previous day. The decrease resulted in the performance fee of MYR60,269 (MYR 602,691 x 10%) being added back (reversed) to the Fund. The cumulative performance fee accrual became negative MYR 50,269 (60,269-10,000). Please note that that the subscription of MYR 2 million is not taken into consideration when the performance fee is computed.

On 4th January, investment of the Fund resulted in nil returns, therefore the gross asset value remains at MYR21,546,981 and no performance is imposed on the Fund. The redemption of MYR3 million has resulted in number of units reduced by 3,069,682 (MYR3 million divided by 0.9773), to 18,976,773. The cumulative performance fee accrual remained at -MYR50,269. Please note that the redemption of MYR3 million is not taken into consideration when the performance fee is computed.

Illustration of performance fee at the end of financial year:

The performance fee is accrued daily, and paid on the last day of the financial year. Assume that the NAV on 30th December is MYR25 million, 20 million units in circulation, priced at MYR1.25 per unit and cumulative amount of performance fee is MYR12,000. On 31st December, the gross asset value of the Fund decreased by 0.5%, no subscriptions and redemptions were received.

On 31st December, the investment value of the Fund decreased by MYR125,000 (MYR25,000,000 x 0.5%) compared to the previous day. The decrease resulted in the performance fee of MYR12,500 (MYR 125,000 x 10%) being added back (reversed) to the Fund. Cumulative performance fee accrual becomes -MYR500 (MYR12,000 – MYR12,500). Hence no performance fee is paid to the Manager for the financial year.

On the first day of financial year (1st January of the following year), there is 1% increase on the gross asset value of the Fund. Performance fee is chargeable for this day without carrying forward the cumulative performance fee accrual on 31st December of previous year. The Manager only earns a performance fee at each financial year end when the accrual is positive, but is not obliged to pay the Fund when the accrual is negative. The cumulative accrual starts at zero at the beginning of each financial year. In this illustration, the performance fee at the beginning of the financial year started with MYR24,887.

Fees payable to the Trustee

The Trustee is entitled to a trustee fee of 0.05% per annum of the NAV of the Fund (excluding foreign sub-custodian fees and charges) that is accrued daily and paid monthly.

An illustration on how the trustee fee is calculated:

$$\text{Trustee fee for the day} = \text{NAV} \times 0.05\% / 365$$

Example:

If the NAV of the Fund is MYR 20 million, then

$$\begin{aligned} \text{Trustee fee for the day} &= \text{MYR 20 million} \times 0.05\% / 365 \\ &= \text{MYR 27.40} \end{aligned}$$

Illustration on the impact of fees on the returns of Unit Holder's investment

Assumptions:

Unit Holder A invests into the Fund for 3 years with initial investment amount of MYR 100,000, subscribed at MYR1.00 per unit, equivalent to 100,000 units. No redemptions or additional subscriptions were made throughout the 3-year period. The gross investment returns are -10% on year 1, 0% on year 2 and +10% on year 3. The illustrations shown on yearly basis, rounded to the nearest number (except for the unit price) and exclude GST. Other accrued fees, as mentioned in this section, are administration fee (0.25%), distribution fee (0.25%) and trustee fee (0.05%). In total, these fees amount to 0.55% annually.

Year 1

Investment at the beginning of year is MYR 100,000 equivalent to 100,000 units at MYR 1.000 per unit. At the end of year 1, with return of -10%, the investment value of Unit Holder A decreases from MYR 100,000 to MYR 90,000.

Less: Performance fee	0
Investment value for 100,000 units at the end of year 1	89,505

At the end of year 1, no performance fee charged because the Fund had a negative return of 10%. The investment value of Unit Holder A reduced from MYR100,000 to MYR89,505.

Year 2

Nil (0%) investment return at the end of year 2.

Less: Performance fee	0
Investment value for 100,000 units at the end of year 2	89,013

At the end of year 2, no performance fee charged because the investment return is 0%. The investment value of Unit Holder A reduces from MYR89,505 to MYR89,013 due to deduction of other accrued fees.

Year 3

At the end of year 3 the Fund has positive investment return of 10%.

TRANSACTION INFORMATION

Valuation Point

The Fund must be valued at least once every Business Day. However, certain foreign markets in which the Fund may invest in have different time zones from that of Malaysia.

Accordingly, the valuation of the Fund will be carried out on the following Business Day when the closing prices of the foreign markets become available. As such, the daily price of the Units for a particular Business Day will be published one (1) Business Day later.

Currency translation of foreign securities to the Fund's base currency (RM) shall be based on the bid exchange rate quoted by Bloomberg or Reuters at UK time 4.00 p.m. which is equivalent to 11.00 p.m. or 12.00 a.m. midnight (Malaysian time) on the same day, or such other time as prescribed from time to time by FIMM or any relevant laws.

The Unit price (i.e. NAV per Unit of the Fund) for a Business Day is available at www.saturna.com.my.

Computation of NAV and NAV per Unit

The NAV of the Fund is determined daily at the valuation point by deducting the value of the Fund's liabilities from the value of the Fund's assets. For the purpose of computing the administration fee, distribution fee, performance fee (if any) and annual trustee fee, the NAV of the Fund is inclusive of the fees for the relevant day. The NAV per Unit is then determined by dividing the NAV of the Fund by the number of Units in circulation at the valuation point.

An illustration on how the NAV and NAV per Unit is calculated:

	MYR
Investments	19,800,000
Add: Other Assets	300,000
Total Assets	20,100,000
Less: Liabilities	100,000
NAV before deducting administration fee, distribution fee and trustee fee for the day	20,000,000
Less: administration fee and distribution fee for the day (0.25% + 0.25% per annum)	(273.97)
Less: performance fee** for the day (10% of increased amount of gross asset value (excluding subscription and redemption for the day)	(1,000)
Less: trustee fee for the day (0.05% per annum)	(27.40)
Less: GST for administration fee, distribution fee and performance fee 6%*	(78.08)
NAV of the Fund	19,998,620.55
Number of Units in circulation	19,000,000 units
NAV per Unit (rounded to 4 decimal places)	1.0526

* Assuming that the difference of NAV from previous day is MYR10,000, performance fee is 10% x MYR10,000 = MYR1,000

** GST is implemented at a standard rate of 6%. The administration fee, distribution fee, performance fee and trustee fee charged to the Fund are subject to GST as illustrated above.

Rounding Adjustment

The NAV per Unit of the Fund will be rounded up to four decimal places or as agreed between the Manager and Trustee.

Pricing of Units

Single Pricing Regime

The Manager adopts a single pricing regime in calculating a Unit Holder's purchase and redemption of Units. This means that all purchases and redemptions are transacted on a single price (i.e. NAV per Unit). Unit Holders would therefore purchase and redeem Units at NAV per Unit. The Selling Price per Unit and Redemption Price per Unit are based on Forward Pricing.

Selling Price of Units

The Selling Price of a Unit for the Fund is the NAV per Unit of the Fund at the next valuation point after the request to purchase Units is received by the Manager (Forward Pricing). The Manager does not impose any sales charge on the purchase of Units by the Unit Holders.

Calculation of Selling Price

Illustration – Sale of Units without sales charge

Example:

If an investor wishes to invest RM10,000 in the Fund before 4.00 p.m. on 30 September 2016, and there is no sales charge imposed, the total amount to be paid by the investor and the number of Units issued to an investor will be as follows:

Sales charge payable by an investor = $0 \times \text{RM}10,000 = 0$

The total amount to be paid by an investor for his or her investment will therefore be: $\text{RM}10,000 + 0 = \text{RM}10,000$

Assuming that the NAV per Unit of the Fund on 30 September 2016 = RM1.0000

The number of Units that will be issued to the investor will be:

$\text{RM}10,000.00$ divided by $\text{RM}1.0000 = 10,000$ Units

Redemption Price of Units

The Redemption Price of a Unit of the Fund is the NAV per Unit at the next valuation point after the redemption request is received by the Manager (Forward Pricing). The Manager does not impose any redemption charge on the redemption of Units by the Unit Holders.

Calculation of Redemption Price

Illustration – Redemption of Units without redemption charge

Example:

If a Unit Holder wishes to redeem 10,000 Units from the Fund before 4.00 p.m. on any Business Day and there is no redemption charge imposed, the total amount to be paid to the Unit Holder will be as follows:

Assuming that the NAV per Unit of the Fund on 30 September 2016 = RM1.0000

Amount redeemed would be: $10,000 \text{ Units} \times \text{RM}1.000 = \text{RM}10,000$

Redemption charge would be: $0 \times \text{RM}10,000 = 0$

The total amount to be paid to the Unit Holder will be $\text{RM}10,000 - 0 = \text{RM}10,000$

Therefore, the Unit Holder will receive RM10,000 as redemption proceeds.

INVESTORS ARE ADVISED NOT TO MAKE PAYMENT IN CASH TO ANY INDIVIDUAL AGENT WHEN PURCHASING UNITS OF THE FUND.

Error in Pricing of Units

Subject to any relevant law, if there is an error in the valuation and/or pricing of the Fund and/or NAV per Unit of the Fund, the Manager will take immediate remedial action to correct the error. Rectification shall, where necessary, extend to the reimbursements of money as follows if the error is, at or above the significant threshold of 0.5% of the NAV per Unit:

- If there is an over valuation and/or pricing in relation to the purchase and creation of Units, the Fund shall reimburse the Unit Holder;
- If there is an over valuation and/or pricing in relation to the repurchase of Units, the Manager shall reimburse the Fund;
- If there is an under valuation and/or pricing in relation to the purchase and creation of Units, the Manager shall reimburse the Fund; and
- If there is an under valuation and/or pricing in relation to the repurchase of Units, the Fund shall reimburse the Unit Holder or former Unit Holder.

The Manager retains discretion in whether or not to reimburse if the error is below 0.5% of the NAV per Unit or where the total impact on an individual account is less than MYR10.00 in absolute amount. This is because the reprocessing costs might be greater than the amount of the reimbursement.

Investors who are investing with the Manager for the first time may exercise their cooling-off right. Any unclaimed distribution cheques will be automatically reinvested in additional Units at the expiry of the six-month validity period for cheques, based on the prevailing NAV per Unit seven (7) Business Days after the validity period of the cheques.

Unit prices and distributions payable, if any, may go down as well as up.

Distribution Plan

Investors may purchase Units in the Fund directly from the Manager, or from Distributors such as banks, brokerage firms, and investment platforms. The Fund pays the Manager 0.25% per annum of its Net Asset Value for its marketing and distribution expenses.

Investors often find it convenient to invest through Distributors, and the Manager has entered into agreements with certain Distributors and investment platforms for the distribution and servicing of Fund investments. The Manager compensates these Distributors and platforms for services to Investors with an annual fee of 0.25% to 0.35% of the Net Asset Value of the Fund based on the total assets serviced by the Distributor. The fee is computed daily and paid by the Manager to Distributors quarterly.

The taxation of the Fund, a unit trust scheme is governed principally by Sections 61 and 63B of the Malaysian Income Tax Act, 1967 ("MITA"). Further, the Inland Revenue Board of Malaysia ("IRBM") has issued the Public Ruling 7/2014: Unit Trust Funds - Part II – Taxation of Unit Trusts dated 4 November 2014 to explain the tax treatments for Unit Trust Fund. The Fund's Trustee is SCBMB Trustee Berhad, which is a resident in Malaysia for tax purposes. As the trustee is a tax resident in Malaysia, the Fund is also regarded as a Malaysian tax resident.

The income of the Fund in respect of dividends, interest or profits from deposits and other investment income derived from or accruing in Malaysia is liable to income tax unless specifically exempted under the law. In this respect, any gains or profits received, in lieu of interest, for transactions conducted in accordance with the principles of Shariah, will be treated as interest and be accorded the same treatment as if they were interest in accordance with Section 2(7) of the MITA. Under Section 2(7) of the MITA, any reference to interest shall apply, mutatis mutandis, to gains or profits received and expenses incurred, in lieu of interest, in transaction conducted in accordance with the principles of Shariah. The income tax rate applicable to the Fund is 24%.

1.2 Exempt income / Non-taxable income

(a) Profits from the realization of investments

Gains from sale of investments will not be treated as income of the Fund and hence, are not subject to income tax [Section 61(1) of the MITA].

(b) Dividend income

Dividends received by the Fund from other Malaysian entities which are tax exempted are not subject to income tax. This includes dividends distributed under the single tier tax system [Paragraph 12B, Schedule 6 of the MITA].

(c) Interest income

Interest income received by the Fund from the following are exempt from income tax:

- (i) Any savings certificates issued by the Government [Paragraph 19 to Schedule 6 of the MITA];
- (ii) Securities or bonds issued or guaranteed by the Government [Paragraph 35(a) to Schedule 6 of the MITA];
- (iii) Debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission [Paragraph 35(b) to Schedule 6 of the MITA];
- (iv) Bon Simpanan Malaysia issued by Bank Negara Malaysia [Paragraph 35(d) to Schedule 6 of the MITA];
- (v) Deposits with banks or financial institutions licensed under the Banking and Financial Services Act 2013 or the Islamic Financial Services Act 2013, or any development financial institution prescribed under the Development Financial Institutions Act 2002, provided that in the case of a wholesale fund which is a money market fund, the exemption shall only apply to a wholesale fund which complies with the criteria as set out in the relevant guidelines of the Securities Commission [Paragraph 35A to Schedule 6 of the MITA];
- (vi) Islamic securities (including sukuks) originating from Malaysia, other than convertible loan stock issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission, or approved by the Labuan Financial Services Authority [Paragraph 33B(1) to Schedule 6 of the MITA];
- (vii) Bonds and securities issued by Pengurusan Danaharta Nasional Berhad [Income Tax (Exemption) (No. 5) Order 2001
- (viii) Sukuk Issued which had been issued by the Malaysia Global Sukuk Inc [Income Tax (Exemption) (No.31) Order 2002]

- (x) Sukuk Wakala, other than convertible loan stock, issued in any currency by Wakala Global Sukuk Behad [Income Tax (Exemption)(No. 4) Order 2011].

(d) Discount income or profit derived

Tax exemption is given on discount income received on the securities and debentures mentioned in items 1.2 (c) (ii) to (iv) above [Paragraph 35(a) to Paragraph 35(d) to Schedule 6 of the MITA].

(e) Foreign sourced income

Dividends, profits and other income from investments derived from sources outside Malaysia and received in Malaysia by the Fund are exempted from Malaysian income tax [Paragraph 28 to Schedule 6 of the MITA]. However, such income may be subject to tax in the country from which the income is derived.

1.3 Deductibility of expenses

Section 33(1) of the MITA allows expenses incurred “wholly and exclusively in the production of gross income” to be deductible against the gross income, e.g. interest incurred on a loan to finance investments can be deducted against the dividend income or interest income from that investment.

In addition, Section 63B allows partial deduction for other non-direct expenses known as “permitted expenses”. “Permitted expenses” comprise the manager’s remuneration, charges for maintenance of register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage. The amount deductible is calculated based on the formula below:

$$A \times \frac{B}{4C}$$

where: A is the total of the permitted expenses incurred for that basis period;

B is gross income consisting of dividends, interest and rent chargeable to tax for that basis period; and

C is the aggregate of the gross income consisting of dividend and interest (whether such dividend or interest is exempt or not), rent and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period.

Provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period. Dividend income is deemed to include income distributed by a unit trust for the purpose of calculating the above deduction.

Should the deduction exceed the income assessable to tax, the excess is not allowed to be carried forward for offset against the income of future years of assessment.

1.4 Real Property Gains Tax (“RPGT”)

Capital gains from disposals of chargeable assets, such as real properties or shares in real property companies will be subject to real property gains tax (“RPGT”).

Capital gains arising from the disposal of real properties or shares in real property companies would be subject to RPGT as follows:

- (a) Gains arising from disposals made within 3 years from the date of acquisition of the chargeable assets are subject to RPGT at the rate of 30%;
- (b) Gains arising from disposals made between the 4th year from the date of acquisition of the chargeable assets are subject to RPGT at the rate of 20%;
- (c) Gains arising from disposals made between the 5th year from the date of acquisition of the chargeable assets are subject to RPGT at the rate of 15%; and
- (d) Gains arising from disposals made after 5 years from the date of acquisition of the chargeable assets are subject to RPGT at the rate of 5%.

[Schedule 5 of the Real Property Gains Tax Act 1976]

1.5 Goods and Service Tax (“GST”)

Pursuant to the Goods and Services Tax (Exempt Supply) Order 2014, the issuance of any units under a trust fund is determined as exempt supplies. The Fund, being a trust fund, will be making exempt supplies and hence it is not required to be registered for GST purposes.

In respect of any GST expenses paid by the Fund on management fees, trustee fees and other expenses, the 6% input tax which may be incurred are generally not claimable or recoverable by the Fund.

2. TAXATION OF UNIT HOLDERS

2.1 Distribution of taxable income

The general provisions under the MITA are applicable to income received by unit holders. In addition, the tax treatments for unit holders are explained in the IRBM's Public Ruling 5/2013 – Taxation of Unit Holders of Unit Trust Funds dated 23 May 2013. Unit holders will be taxed on their share of the total taxable income of the Fund distributed to them. This income distribution carries with it a tax credit for the tax paid by the Fund on its taxable income. This tax credit may be utilised by the unit holders to set off the tax payable by them pursuant to Section 110(9A) of the MITA. The tax authorities will refund any excess of tax credit over tax chargeable to the unit holders.

Distributions of income from the Fund received by individuals and other non-corporate unit holders who are residents in Malaysia for tax purposes will be taxed at graduated rates from 1% to 28%. Individuals and other non-corporate unit holders who are not resident in Malaysia, will be subject to tax at the non-resident rate applicable of 28% on the distributions of income received.

Corporate unit holders, whether resident or not resident in Malaysia, will be subject to tax at the corporate tax rate of 24% on the distributions of income from the Fund received by them. For small and medium scale companies with a paid-up capital of RM2.5 million and below (SME), the corporate tax rate of 18% is applicable on chargeable income of up to RM500,000 and 24% on the amount exceeding RM500,000. However, a company with a paid-up capital of not exceeding RM2.5 million will not qualify as a SME under the following circumstances:

- i. more than 50% of the paid up capital in respect of ordinary shares of the company is directly or indirectly owned by a “related company”;
- ii. more than 50% of the paid up capital in respect of the ordinary shares of the “related company” is directly or indirectly owned by the first mentioned company; or
- iii. more than 50% of the paid up capital in respect of the ordinary shares of the first mentioned company and the “related company” is directly or indirectly owned by another company.

“Related company” is defined as a company which has a paid-up capital exceeding RM2.5 million in respect of ordinary shares at the beginning of the basis period for a year of assessment.

2.2 Distribution of tax exempt income

Distributions of tax exempt income by the Fund from gains from realisation of investments, exempted interest/discount income, exempted dividends including single tier dividends and foreign sourced income, will be exempted from tax in the hands of the unit holders.

2.3 Unit splits and sale, transfer or redemption of units

Unit splits issued by the Fund is not taxable in the hands of the unit holders. Any gains realised by unit holders (other than dealers in securities, insurance companies or financial institutions) from the sale, transfer or redemption of the units are treated as capital gains and thus, will not be taxable.

However, the gains realised by a person trading or dealing in securities, insurance companies or financial institutions are generally regarded as business income and are subject to income tax.

We hereby confirm that, as at the date of this letter, the statements made correctly reflect our understanding of the tax position under the current Malaysian income tax legislation and the related interpretation and practice thereof, all of which are subject to change, possibly on a retrospective basis. In addition, unit holders are advised to seek professional advice on their respective tax positions.

Yours faithfully

The Manager considers issuers with Sustainable characteristics to be issuers that generally have larger market capitalization, are consistently profitable, financially strong and with low exposure to risks in the areas of the environment, social responsibility and corporate governance (“ESG”). - Disclosures and Transparency

Social:

- Business Ethics and Products
- Stakeholder Relations (employees, investors, community)

Governance:

Balance Sheet and Business Experience

As the Fund is a qualified SRI fund, the investments of the Fund will be subject to the integration of ESG methodology. This includes the screening, selection, monitoring and realization of the Fund's investments. The Manager also uses negative screening to exclude security issuers primarily engaged in higher ESG risk and some non-halal businesses such as alcohol, pornography, weapons, gambling and fossil fuel extraction.

The sustainability aspects of the Fund's portfolio will be reviewed periodically to ensure the investments of the Fund are consistent with the sustainability considerations adopted by the Fund at all times.

If the company that the Fund invests in show persistent deterioration in their ESG factors and becomes inconsistent with the sustainability considerations, the Manager will dispose of the investments within appropriate timeframe as the following:

- if the market price of the Shariah-compliant equities exceeds or is equal to the investment cost, the Shariah-compliant equities will be disposed as soon as practicable.

UNIT TRUST LOAN FINANCING RISK DISCLOSURE STATEMENT

You should assess if loan financing is suitable for you in light of your objectives, attitudes to risk, and financial circumstances. You should be aware of the risks, which would include the following:

1. The higher the margin of financing (that is, the amount of money you borrow for every ringgit of your own money that you put in as deposit or down payment), the greater the potential for losses as well as gains.
2. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
3. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral or pay additional amounts on top of your normal installments. If you fail to comply within the time prescribed, your units may be sold to settle your loan.
4. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

The brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take a loan. If you are in doubt with respect to any aspect of the Risk Disclosure Statement or the terms of the loan financing, you should consult the institution offering the loan.

Investing in a unit trust fund with borrowed money is more risky than investing with your own savings.

ACKNOWLEDGEMENT OF RECEIPT OF RISK DISCLOSURE STATEMENT

I acknowledge that I have received a copy of this Unit Trust Loan Financing Risk Disclosure Statement and understand its contents.
